53-7199	Material Moving Workers, All Other	120	10.9	0.97	17.47	18.89	39,290	2.8

Notes

Estimates for detailed occupations do not sum to the totals because the totals include occupations not shown separately. Estimates do not include self-employed workers.

Annual wages have been calculated by multiplying the corresponding hourly wage by 2,080 hours.

The relative standard error (RSE) is a measure of the reliability of a survey statistic. The smaller the relative standard error, the more precise the estimate.

The location quotient is the ratio of the area concentration of occupational employment to the national average concentration. A location quotient greater than one indicated the occupation has a higher share of employment than average, and a location quotient less than one indicates the occupation is less prevalent in the area than average.

(1) Wages for some occupations that do not generally work year-round, full time, are reported either as hourly wages or annual salaries depending on how they are typically paid.

(2) This wage is equal to or greater than \$115.00 per hour or \$239,200 per year.

(3) Estimate not released.
